Topic sentence	Possible paragraph content	Possible type of supporting information
There's no denying that Insta-holidays are on the rise.		
There are very good reasons to make your phone your travel companion.		
Needless to say, Instagrammable hotspots are also riding this wave.		
These economic benefits are not limited to the destinations themselves.		
That's not to say that trending on Instagram doesn't come at a cost.		
The situation has deteriorated to such an extent in some popular destinations that their travel boards have been forced to take action.		
There is also an increasing awareness of the negative psychological effects of always being on the lookout for the next photo.		
Whether you love it or hate it, it seems that Insta-holidaymaking is here to stay – but how can tourism professionals tap into it?
